ASTME Holding Ladies' Night At Deane Hill

The Knox-Oak Ridge Chapter of the American Society of Tool and Manufacturing Engineers will hold its annual meeting tomorrow. Ladies' Night is set at the Deane Hill Country Club, Knoxville, Thursday, December 2.

The featured event will be a fashion show presented by Conley E. Morris Fashions. A social hour starting at 6:30 p.m. will be followed by dinner at 7. The fashion show and drawing for door prizes will begin at 8. All members are urged to obtain tickets and reservations early.

ORINS Pollard Leads Physics Division Seminar

W. G. Pollard, Oak Ridge Institute of Nuclear Studies, will be the featured speaker at this week's Physics Division seminar. His subject will be "Quarks."

The seminar is set for Friday, December 3, at 3:15 p.m., in the East Auditorium of ORNL's 4500 building.

TO HAVE AND HOLD

Holiday Bureau Calls For Santa's Helpers

Workers Paged As **Needy List Prepared**

Union Carbide employees have always been responsive to the Holiday Bureau, and it is believed that this year will be no exception. As Christmas approaches, the Bureau renews its efforts to make the season just a little brighter for the less fortunate families in Oak Ridge and Anderson County. This year the Bureau will again provide food, toys, clothing and some furniture to 900 families with 4,000 children. These families are referred to the Bureau by the Welfare Departments in both Oak Ridge and Anderson County, as well as by interested groups and

The Holiday Bureau is an organization governed by a board of directors on a non-pay, nonprofit basis. It also acts as a clearing house for groups that wish to assist needy families personally. Through a master list, the Bureau is able to supply names as well as other pertinent information to these groups. This service prevents duplication, thereby affording a broader distribution to those in need, according to Jerry Goldberg, chairman of the Bureau, and an ORNL employee.

\$4,500 Annual Budget

Last year, the Bureau spent early to file that one away. \$4,000 on the operation of the There will be the usual toy repair shop and the making of 450 food baskets. Due to an increase in the cost of food, rent and utilities, Chairman Goldberg anticipates the needs of the Bureau at \$4,500 this year. The Don't United Fund donates \$1,500 annually to the Holiday Bureau. The remaining comes from donations, both large and small, from groups, individuals, and department coffee funds and employee groups "in lieu of sending Christmas cards."

The Holiday Bureau is located in Dennison Hall, a converted dormitory just east of the National Guard Armory, across the Turnpike from the Garden Apartments. It is open from 12 p.m. until 9 p.m. every day. New and repairable toys are needed as is food, clothing and useable furniture. There is also an urgent need for dolls and for individuals and groups to dress these dolls. The clothing will be turned over to Thrift Shops, located in Oak Ridge and Clinton.

Santa Helpers Needed Manpower is also needed by the Bureau. Anyone willing to give a few hours of his time to Continued on Page 4

GEE GEE'S ALASKANS are seen in one of their terrific acts. The Malemute dog show is one of the features of December 22 Kiddies' Parties, set at 9 and 11 a.m., 1, 3 and 5 p.m. Ticket application appears on page four.

Kids' Christmas Parties All Set For December 22

Plans are all set for the big parties planned for Carbide kids Wednesday, December 22. There will be Gee Gee and her trained Alaskans . . . those bright huskies associated with the frozen wastelands of Santa's domain. Old Santa himself will be on hand to dole out a gift package to each child present.

The times set are 9 and 11 a.m.; 1, 3 and 5 p.m., on Wednesday,

December 22. (Application for tickets again appears on page four of this issue of the Bulletin.) Hundreds of ticket requests have already come in, so it's not too Holiday Parties

There will be the usual cartoons, group-singing and merry-making in general. The five parties promise to be jumping as each act thrills the youngsters

Don't disappoint that child this year . . . get your applications in

A ticket is the only requirement for admittance, but a ticket is necessary . . . and they're so easy to come by. Just detach the application on page four, fill out completely, and number the tickets you need (that is, how many children are there at home between two and 10?) Recreation does ask that a complete home address is required . . . that is, a town. Frequently, employees omit the name of their town residence, such as Oak Ridge, Clinton, Oliver Springs, etc. That part is needed, since the tickets will be mailed to each home in plenty of time for the December 22 parties.

The parties will, as usual, be held at the Oak Ridge High School auditorium. Parents may accompany the wee ones on the also. (See application.)

The sound system has been reworked at the school and officials 3-5305 is handling reservations say that the carols and cartoons for this one, and tickets are \$4.50 will be audible this year.

Weathermen are crossing their fingers . . . hoping for a bright day . . . and not 10 inches of snow, like two years ago.

So bring the kiddies on out for the fun. But get those ticket applications in first.

NEW HUBBY HOBBY

The wife of a retired Y-12er pointed to her husband stretched out on a hammock. "He's latched onto a new hobby. He's letting the birds watch him!"

Two Divisions Set

Two Y-12 divisions are vying for the spotlight this week and next. This week it's Metal Prep with a big dinner party at the Oak Terrace. They are calling it the Second Annual Metal Prep Frolics, and promise food, music and conviviality to all comers.

Roy Williams, Jo Ann Isham, Herm Butler, Bill Crow, Helen Underwood, Joe Barkman, Wilma Trebilcox and John Reece are 9212 sellers . . . Bill Hubbs, Jim Thompson and Spears Vavalides sell them in 9215 . . . Winda Livesey is selling tickets in 9201-1 and Ray Guinn has them in 9998. In Beta Four, it's E. C. Alexander, Merilyn Barnhill and Ken Valentine. Dave Smith sells them in 9201-5 and Liz Harris and Roger Brotherton have Beta Two.

The social hour begins at 6:30 . . dinner is at 7:30 and dancing to the Martiniques commences at 9. So be there . . . and be prepared for fun. That's this Saturday, December 4.

The Maintenance Division has set next Friday, December 10 as their big night in the spotlight. accompany the wee ones on the They are calling their shindig parties, but they need tickets "Holiday Magic in Motion," whatever that means.

Frances Donahue, extension each.

Charlie Hale and his musicians will be on hand at the Oak Ridge Country Club to provide a musical salute to the holidays, to the pleasure of dancers there.

Both divisions say that other plantsmen and women are welcomed . . . you just have to buy a ticket like they do!

That's Metal Prep, this Saturday, December 4, at the Oak Terrace . . . and Maintenance at the Country Club next Friday, De-

WEDDINGS ESTES-JOHNSON

South Charleston Vet Is Named Vice President

A. E. Montagna has been named vice president - technology of the Fibers and Fabrics Division of Union Carbide Corporation. John R. Hulten, division president, named the official last week.

Montagna joined Union Carbide in 1937 as a chemist in the works laboratory of the Chemicals Division in South Charleston, West Virginia. In 1955, he was appointed assistant director of the technical center there and two years later was made associate director. From 1962 through 1965 he held a number of management positions at the center assuming also the post of director of technical programs in 1964.

He is a graduate of Bethany that we have neglected College, Bethany, West Virginia.

Japanese Film Set For Sunday Showing

An action - packed Japanese epic, "Yojimbo," is the December offering of the AAUW Foreign Film Series. This satirical story of a bodyguard who kills the bodies he is hired to guard stars the celebrated Japanese actor Toshio Mifune. It will be shown twice Sunday, December 5, at 7 and 9 p.m. at Jefferson Junior High School.

Season ticket holders may use their tickets . . . and single admissions of 75 cents will be sold at the door.

Towing Newer Autos Can Be Dangerous

Towing an automobile with automatic transmission can be deadly . . . unless you know what you're doing.

Recently, a young woman in California was steering a car while it was being towed 30 miles into town for repairs. The automatic transmission became overheated by friction because the oil pumps couldn't function wood, Inskip and Clinton Highproperly to lubricate the moving way areas, to East, North or parts. Excessive heat caused the Central Portals, straight day. W. gears to lock and fly apart, L. McCormick, plant phone 3-7951 cracking the transmission hous- or home phone Knoxville 522ing and breaking a hole in the 5207. floor. Hot transmission oil sprayed on the passengers and the woman and her small daughter died of burns.

says cars with automatic transmission should not be towed at high speed for long distances unless the rear wheels are off the ground, or the drive shaft is disconnected. The Council says each car owner should be familiar with the requirements for towing listed by the car manufacturerand follow the instructions!

A Shift Plans **Big Turkey Shoot**

A Shiftmen are inviting all Y-12 employees and their families to participate in Saturday's big turkey shoot. It's set for 9:30 a.m., Saturday, December 4, at the Oak Ridge Sportsmen's Association

Free coffee and doughnuts will be available on the grounds.

The drawings for relay tickets sold will be held at 9:30 a.m. There will be another drawing at 11:30 a.m. for losers. Splatter boards are available at 50 cents on a 20-chance board.

Ammo must be purchased on the site in fairness to all sharpshooters. So come out to Saturday's turkey shoot, says A Shift. It's a good chance to put a bird in the freezer for the upcoming

New Chemical May Replace Brick Mortar

A promising new chemical product is a replacement for mortar in masonry construction. A wall is built by simply stacking bricks with no mortar or filler, then brushing or spraying on a molten mixture of glass fibers and plasticized sulfur. The sulfur - fiber mix is stronger than other bonding agents, is a good insulator, and can be dyed before application to give any desired color. Construction time is about oneeighth that of conventional mortar work.

Chem Tech Kelmers Holiday Bureau Is Analytical Group Speaker Tonight

A. D. Kelmers, chemist, Chemical Technology Division, Oak Ridge National Laboratory, will be the speaker at tonight's Analytical Group meeting. The East Tennessee Analytical Group meets tonight, Wednesday, December 1, at 8 p.m. in the Ridge Room of the Holiday Inn.

Kelmers will describe the Biochemical Separation Program, a new field of research in the ChemTech Division, which is developing new methods for the recovery of macromolecules of biological interest. In particular, the experimental activities leading to the recovery of the first pure transfer ribonucleic acid from E. coli, the phenylalanine-accepting transfer ribonucleic acid, and the analytical problems associated with the identification of these

macromolecules will be discussed. Following the program, votes will be tabulated for election of

new officers for 1966. A refreshment hour will follow Kelmers' talk.

The stepping stones to success often start out as stumbling
